

# The Stuck Truck

Focus Sound: \_ck digraph & short vowels By: B. Marker

"I do not have to be with the other trucks," said a big, black truck. "I will get on a different path. Then, I will have fun." On the path, there was thick mud. The truck got stuck in a big dip.

He went hum, hum, hum. He sang a sad, sad song. Then, the cats and ducks and chicks ran to him. "We will help," they said. They got the truck off the mud. "We all get stuck sometimes," they said. The End.
